

**For our head office in beautiful Glottertal (near Freiburg),
we are looking to strengthen our team with a**

Production and Service Electronics Technician **(m/f/d), permanent and full-time.**

This is who we are:

As a specialist in electrical measuring instruments, with in-house development and manufacturing, HDT supplies innovative, high-quality measuring instruments at competitive prices.

Our extensive portfolio of ready-made OEM measuring instruments is complemented by numerous customised ODM products. Here, HDT covers the full spectrum of private-label solutions – whether in our own housings, by enhancing existing technology with new functions, or as completely new developments.

Everything under one roof – thanks to our in-house development and manufacturing, we have quality and costs under control and possess the in-house expertise required for measuring instruments.

Our sites in Germany, England, China and Serbia work closely together to achieve this.

Please refer to our privacy policy at:
<https://www.behabelt.com/en/privacy/>

The role involves:

- Repairing, calibrating and adjusting measuring instruments
- Maintaining the SAP ERP system
- Preparing reports on product improvement
- Drawing up work instructions
- Supporting other departments

Your profile:

- Ideally, a completed apprenticeship in electronics
- An independent and reliable approach to work
- Goal-oriented, a team player and flexible
- Knowledge of English
- A strong focus on quality
- Proficiency in Microsoft Office

Working conditions:

- Working in a small production team
- A varied range of tasks
- Involvement in the latest product developments

We offer you:

- Flat hierarchies and short decision-making processes
- An exciting industry in a growing, international environment
- An attractive working environment in a region offering plenty of leisure opportunities
- A pleasant working atmosphere and performance-related pay
- HanseFit or company supplementary health insurance
- Job-Rad scheme
- Free parking spaces
- Company pension scheme
- 30 days' annual leave, flexitime scheme
- Opportunities for further training

What matters to us are your strengths and experience. That is why we welcome all applications, regardless of characteristics such as gender, background, ethnicity or any disability.

Are you motivated and keen to grow alongside your role and our company? If so, we look forward to receiving your application by email.
